

American Wire Group (AWG) is the leading material supplier and manufacturer of wire & cable, hardware, equipment, and accessory solutions. We have earned our reputation by offering exceptional customer service, delivering products of the highest quality, and ensuring timely deliveries.

We've expanded our footprint to meet the surging demand in the utility and renewable energy markets, and we've been able to do so with four regional distribution centers in Pennsylvania, California, Texas and Florida. We maintain an extensive inventory of products utilized in the power T&D, substation, solar, wind, battery energy storage, and EV infrastructure markets.

The Full Life Cycle Experts

Today, companies are being challenged to reduce costs, increase quality and increase customer satisfaction, and that is where we come in. AWG focuses on maintaining your competitive edge and lowering your exposure to volatile material prices by being a single source solution.

A Team Committed to Quality

At AWG, we are proud to be ISO 9001:2015 certified for quality management. From this foundation, we've expanded in recent years to provide emergency response services to everyone from government agencies to utilities worldwide.

World Class Customer Service

AWG offers comprehensive services to our customers around the world, including cable management, cable engineering and design, emergency services, and more.

We offer many value-added services, including custom labeling, paralleling, cut-to-length, project management, cable recycling, cable customization, and much more!

When you are ready to build the future, American Wire Group is ready to help you [Empower A Better World!](#)
